

Permanent Mold Aluminum Casting

As the professional manufacture, we would like to provide you Permanent Mold Aluminum Casting. And we will offer you the best after-sale service and timely delivery.

Permanent Mold Aluminum Casting Introduction

The following is an introduction to **Permanent Mold Aluminum Casting**, I hope to help you better understand Permanent Mold Aluminum Casting. The hydraulic valve block is used to adjust the pressure, the volume and the direction; it's uniquely designed with high quality and performance. Our factory can produce all kinds of vehicles hydraulic block valves. we have advanced CNC milling machine, machining processing center.

We are specializing in die casting for more than 10 years. The products including aluminum die casting for motor parts, motor shell, electric vehicle parts, automotive parts, LED lamp shade, etc. Zinc die casting: handle for bath room, Zinc Alloy Zamak Die Casting Parts, shower bracket, Zinc alloy window accessory parts, lock set, faucet handle, bathroom washbasin, etc.

Please trust us, we will make you satisfied and exceed your requirements.

ISO9001

Material:

Aluminum alloy

Software:

Pro/E, Auto CAD, Solid work, UG, CAD, CAM

Machining Equipment:

CNC Machining Center, CNC Lathes, CNC Milling Machine, Linear cutting machine, grinding machine, etc.

Packaging:

- 1) Pollybag and carton, 0.5-10 kg/carton,
- 2) Pallet or container
- 3) As per customized specifications.

Made by advanced 4/5 axis cnc machines and high precision measuring equipments to ensure quality for your every part.

Perfect surface treatment: Blackening, polishing, anodizing, chrome plating, zinc plating, nickel plating, grinding etc.
